Category	Category	Question	Answer
		What happens if the application is not completed by the deadline?	No extension of application deadline. In case of FY2022, October 31 at 23:59 (Japan time).
	Letter of recommendation	Who should write a letter of recommendation? Is one letter of recommendation enough? Also need letters of recommendation for my collaborators?	The format of the letter of recommendation is free, but please be sure to use the letterhead of the university or the institution to which the recommender belongs. The signature or seal of the recommender is required. Specific letter of recommendation from academic who knows the applicant well is required. Recommendations without specifics reasons are invalid. Collaborators cannot be recommenders. One is fine, but multiple is possible. Not necessarily.
	Requested budget	What is the exchange rate for budget? Is the indirect cost (overhead) of the affiliated institution covered by the grant? Is dedicated software necessary for research acceptable as an expense? Are academic participation fees allowed? Is it possible to purchase PCs, printers, etc. with grant? Are research assistant fees acceptable?	Use the bank rate at the time of application. Indirect costs (overhead) from the grant are not allowed. General-purpose items are not allowed, but items specialized for research are acceptable. Anything necessary for research is allowed. General-purpose items are not allowed, but items specialized for research are acceptable. Personnel (interpreters, assistants, etc.) hired to assist during the research period are permitted. Remunerations for researcher itself and collaborators are not accepted.
	Application system	Is it possible to apply from outside the system? What do applicant need when applying for the system?	Impossible. Application from the system only E-mail address of the applicant

Category	Category	Question	Answer
Research	Theme	Are there any advantages or disadvantages of the theme?	None
	Research method	Is it necessary to visit Japanese research institutes and universities for research? Can applicant visit foreign countries other than Japan? Can applicant expect support from The Sumitomo Group (acceptance of visitors, etc.) for the research? As a comparative study, is it acceptable to conduct a comparative study that includes a third country?	Not necessarily. Yes No Yes
	Research period	Is the research period only one year?	At the time of application, please make a research plan within one year. After the start of the research, it is possible to extend it for unavoidable reasons (up to 2 years).
	Research content	Is it possible to apply with the content that has already been announced? Will The Sumitomo Foundation publish the research results? Is it possible to find out not only the themes of those who have been selected, but also the themes of those who have not been selected, from websites, etc.? Does the applicant need to write a paper or publish the research results?	Impossible No It's possible to find the themes of those who have been selected in the website. Not necessarily.
	Research result	Who owns the research results? Are there any restrictions on the publication of research results? What are the research results required of grant recipients? When should the report be submitted? Need to write a dissertation? Need to create a publication?	The researcher itself. No. After completing the research period, please submit a Completion Report and a Financial Report. If any deliverables such as papers, publications or others, please also submit them (photocopies are acceptable). Please be sure to include an acknowledgment of The Sumitomo Foundation in the publications and articles. Within 3 months after the end of the research period Not necessarily. Not necessarily.
	Past project	Is it possible to refer to past projects and research results?	Posted on The Sumitomo Foundation website

Category	Category	Question	Answer
Evaluation	Evaluation criteria	Are there any evaluation criteria for acceptance?	Based on the contents of the application form, considering Eligibility, Feasibility and Suitability of the research theme. (Whether it is a concrete plan that can actually carry out research and produce results)
	Pass/Fail	Will the reason be disclosed in case of rejection? Who are the selection committee members?	Not disclosed The selection of applications will be made by the Foundation's Selection Committee made up of certain persons of high academic standing.
Grant	Grant	Can it be combined with other financial assistance (another fund)? How are grants paid? Can get a grant through university? How much is the grant amount per case? Is it possible to continue to receive the grant multiple times? Is the grant paid in installments? Can food and beverage expenses be covered by the grant? What if there is money left over?	Yes Payment will be made to the account specified by the applicant (in principle, personal account) after the contract is concluded. Universities and affiliated institutions should not collect administrative fees. A certificate stating that overhead fee will not be charged to the researcher must be issued by the university or affiliated institution. Up to 2 million yen (or equivalent to 2 million yen in US dollar amount). Plans exceeding this amount at the time of application will not be accepted Researcher who has been selected in the past can apply only after having completed its research. Cannot reapply during the research period. Lump-sum payment Food and beverage expenses are not permitted (including during business trips) As a general rule, use the full amount of the grant. If it is unavoidable that applicant cannot use all of them, please contact us individually.
